

# Wood Shavings

Northeast Ohio Woodworker's Guild

Vol. 6 Issue 5

## Hand Plane Tune-Up

Meeting Wed. May 10<sup>th</sup>

Bring in your hand planes and share tips on tuning and using them. If you have specialty planes we would like to see them also. Also bring in your sharpening supplies and some rough lumber to practice on.

## June Meeting

At June's Meeting Ted will continue his demonstration of drilling and fitting the angled legs on a stool.

## Challenge Project

Hopefully everyone has started a storage box for the next challenge. You are free to make one of your own choice or work along with other members who are making versions of a fine tool chest featured in WoodSmith magazine #151.

## Future Meeting Plans

We would like to plan our meeting demonstrations for the next few months so please consider what you could share with the guild members.

There are contacts being made with a few respected woodworkers to do weekend workshops on design and/or veneering work..

## April's meeting

At April's meeting we looked and discussed a few finishing options. Then Ted showed how he sets up a drill press to drill the angle holes need on a chair for the legs and back. This used a simple tilting table for the drill press and angle gauges to set the table at the correct tilt for the holes needed.
